Forecast For East of England
Issued by Met Office Exeter
at 0400 on Thursday 30 Dec 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Mild, cloudy and breezy, with the odd spot of rain.

Today:
A rather cloudy and breezy day with the odd spot of light rain and drizzle. This most likely across the north of the region with the south staying predominantly dry. Very mild for the time of year. Maximum temperature 14 deg C (57 deg F).

Tonight:
Patchy rain clearing this evening to leave much of the night dry, but cloudy and windy. However towards dawn further outbreaks of rain are likely to spread into western parts. Minimum temperature 10 deg C (50 deg F).

Friday:
Outbreaks of rain soon clearing eastwards to leave a largely dry and very mild day, with sunny spells, but it will be very windy. Maximum temperature 15 deg C (59 deg F).

Outlook for Saturday to Monday:
Largely dry Saturday with sunny spells. Heavy showers or longer spells of rain Sunday, easing on Monday. Often windy and starting very mild, but becoming colder next week.
